MEMORANDUM TO MR. COLWELL
RE: CHURCH OF SCIENTOLOGY

DEA has a contract with PRC for PRC to provide people to work on computer terminals and in the computer section at DEA Headquarters. Because PRC has a low pay scale, there is a particularly high turnover in their work force. Consequently, the majority of PRC employees are students working on advanced degrees who prefer part-time night work such as that required at DEA.

Because of the high turnover within PRC, they have an arrangement with the Department of Justice wherein their employees are allowed to begin contract work with government agencies prior to completion of their background investigation. Often times, PRC employees are on board for a month or more before these investigations are even started. [redacted] who was born [redacted] in New Haven, Connecticut, is one of b7C per DEA the PRC employees who has been at DEA for over a month and has not had a background investigation. [redacted] DEA Security Officer, telephone [redacted] is expediting the b7C per DEA b7C per DEA investigation of [redacted] and will have his file available if, in the future, the FBI desires to b7F per DEA review it.

PRC does not have access to classified reports, however, they do work with single documents (DEA 6's) which are used to prepare reports. DEA 6's are similar to FD 302s and are often lengthy.

b7C per DEA

In view of the information furnished by [redacted] DEA is taking steps to review its procedure of using PRC contract employees to insure background investigations are obtained prior to their having access to DEA documents.
